

## **Welcome to Cirkus Flik Flak's homepage**

We are a Danish circus of children and young people who perform in all the classical circus arts. We live in Odense and have existed since 1988, back then under the name Cirkus Tusindben. We began as a weeklong activity for children during the summer holidays where everyone who wanted to try to be an artist could come and join us. In only one week we put together an amazing show. This has become a tradition and every year more children sign up and more people flock to see the show.

Since 1995 we have been an association with weekly practice in circus arts for all young people and since then the activities have increased. Every summer we tour at home and abroad, and in 1998 Cirkus Flik Flak took the initiative to start a festival for children circuses which has also become an annual tradition. Today this festival includes circuses from Denmark as well as international participants.

Cirkus Flik Flak is based purely on the work of volunteers and exudes of personal drive and solidarity. The rest of our homepage is in Danish but feel free to click around, we have a lot of pictures, and if you have any questions you are more than welcome to write to us on the following address: [info@cirkusflikflak.dk](mailto:info@cirkusflikflak.dk)
